

To all of you (parents, students, friends) with pictures of the bands at Wheaton North.

It would be great to have current pictures for the website, either single pictures or collages for those of you with artistic talents.

Picture CDs and digital pictures are gladly accepted and should be directed to the webmaster. For those of you with pictures on your computer, keep reading.

This is going to get a bit 'geeky'. If at any point, you feel your eyes rolling back in your heads, just send in what you have and we'll deal with it.

In the current world of multi-megabyte cameras, the web world is ancient. Our website is set up for 1024x768 resolution to match up with current PC screen sizes. This means that the large resolution pictures, which are wonderful for prints, are not so wonderful for the web. Pictures will never be posted at more than 800x600 and will likely be 400x300, making them half of a column.

Picasa2 is a free tool for manipulating digital pictures.

Windows: <http://picasa.google.com/download/>

Mac: http://picasa.google.com/web/mac_tools.html

What makes this software special is that after you have loaded your pictures onto your PC in all of their megabyte grandeur, Picasa lets you export an entire folder and resize the pictures to a smaller resolution at the same time.

Once you get your pictures into a folder on your PC and into Picasa ...

Edit->Select all (or select the pictures you want to export)

File->Export Picture to Folder

It would help us out (and your email uploading quicker) if you could please resize your pictures to about 400 by whatever before you send them.

To get even more extra credit, please combine them into a zip file so that they can be sent as a single file.

Thanks for listening, thanks in advance for sharing.
